## WORK EXPERIENCE

1. PROPRIETOR, 2011–2015
   Exquivation Enterprise, UK
   Responsibilities:
     a. General business management

## ABOUT ME:

I am a self starter and I pay close attention to details. I have a first class passion for creativity in business and information technology, in which field I have up to nineteen years experience in customer services, sales and services of computers and electronic devices, hospitality and self employment.
My vision is to develop critical skills in management of software development to enable me work in financial industries and data centers.

I have developed mission critical skills in project management,  html5, css3 and JavaScript. Also I have a flare for the use of python and django.
